

WATER SAVING POLICY

ACTION PLAN FOR EMPLOYEES

TUI BLUE LINDOS BAY, commencing October 2012, will prepare specific boards in all employees' areas (back office reception, kitchen, laundry, locker room areas etc.) to encourage employees to use water wisely and only to the amount necessary. The particular boards will read as follows:

"In order to help protect our environment we should be more conscious of our water usage and waste"

"We are lucky enough to be living in a unique island where water reserves are extremely scarce, let's take active part in saving water where possible"
